

↔ How to find us?

Do not search "Froissy" with your car navigation system. The P'tit train is located in the department of the Somme, at La Neuville-les-Bray (post code: 80340), hamlet of Froissy, 2 kms from Bray-sur-Somme; in Bray: direction "Montdidier", on the road D329.

↔ Join us!

The P'tit train is run by volunteers: you can join them! You want to know everything about a tourist steam train? You wish to drive a real locomotive? Just need to improve your French?

Carpenter, mechanic, painter, guard, fireman, driver, receptionist, etc. There is surely one (or several) activity for you! Please ask for information at the reception or have a talk with the volunteers in the Museum, they will be pleased to tell you about their passion! More information, please visit our website: www.appeva.org

The P'tit train de la haute Somme is twinned with the Leighton Buzzard Railway, North of London.

Old steam and diesel locomotives take you for a ride across the gorgeous "vallée de la Somme" from Froissy to the village of Dompierre via Cappy. The train runs on a historic line built in 1916 by the British army to supply the front lines; it was then used for the reconstruction of the villages and from 1924 for sugar beet transport by the Sucrierie Centrale du Santerre at Dompierre and finally run by our volunteers since 1971. The line runs along the waterside, through fields and woods, then up to the Plateau du Santerre by a zigzag track and a 230 metres long tunnel. You will also discover the large Museum that shows 1800 m² of the collection of narrow gauge steam and diesel locomotives and wagons used by the different armies during WW1. Industrial engines and some WW2 locomotives are also on show.
